

POLICIES DRAFT ON SOLID WASTE MANAGEMENT AT UTHM Commitment Declaration

UTHM is committed in practicing a sustainable solid waste management and continuous improvement in operations and development, thereby supporting best practices to create a sustainable campus environment through the following initiatives:

1. Establish a sustainable solid waste management system so that the environment and its natural resources are protected, preserved and conserved.
2. Increase awareness among university staffs and students on sustainable management of solid waste management.
3. Produce professionals with appropriate expertise in the management of sustainable solid waste.
